## MISSION

To empower and support children and adults who have a disability / additional need and their families to maximise their: quality and enjoyment of life, potential, positive relationships within the community.

## VISION

Together we can create a community where:

Children and adults with a disability / additional need and their families are included, valued and well supported.

We are all enriched through an understanding of, and increased participation in, the lives of the children and adults who have disability / additional need.

Gateways is a great organisation to be part of, and our staff and volunteers are known for their commitment to the organisation and our Mission.

## VALUES

Commitment and Cooperation  
Opportunity and Openness  
Respect and Reliability  
Excellence and Empathy

## PRESIDENT AND CEO REPORT

Gateways has a long and proud history of supporting and empowering people with disability. Our origins date back to 1981 with the launch of the Interchange Host Program, an initiative still in operation today. We stand firm behind our vision of establishing a community in which children and adults with disabilities or additional needs, along with their families, are embraced, appreciated, and provided with the necessary support for a fulfilling life. We strive to be an exceptional organisation and recognised for our unwavering dedication to the communities we serve, our team members, and our volunteers.

In a year of leadership transition, we would like to acknowledge and express our gratitude to outgoing CEO Stephanie Gunn, along with interim CEOs Sean Justin and Graeme Kelly, who expertly guided the organisation ahead of our new CEO, Rohan Braddy, taking the reins.

2022/23 was the third year of our 3-year Place Strategy. We have seen many achievements towards this strategy over the 3 years, and with new leadership, we are looking forward to revisiting the strategic direction for Gateways with our community in the coming months.

Alongside our continuing focus on quality client outcomes, the focus for 2022/23 has been in improving efficiency in operations and the performance in all areas of the organisation. This has seen a consolidation of management structures across Barwon and Western Melbourne to enhance service efficiency within the Individual Support and Recreation areas. Some difficult decisions needed to be made that have unfortunately had an impact

on some team members, however our focus remains firmly on achieving the best service delivery outcomes for our participants.

Continued growth in our sector-leading Behaviour Support team and the introduction of a standalone Authorised Program Officer and Authorised Reporting Officer have increased our focus on compliance and in turn the quality of service offered by Gateways.

We delivered 2 new residential homes and have 2 new homes in development that are due to be delivered in 2023/24. Our residential support workers, with 39 individuals boasting over a decade of service to our residential community, do such a wonderful job, helping to make Gateways residential homes a true home for our residents.

We continued our focus on modernising our digital platforms across the organisation, to better support our delivery and drive efficiencies. This year we have introduced a new HRIS platform, streamlining and improving the onboarding experience for our employees, and automating our performance management processes. We will be continuing our digital transformation journey in 2023/24 with the implementation of apps and tools which simplify ways of working for our support teams, participants, and their carers.

Gateways has faced significant financial headwinds over the past few years, and we are pleased to report that this year's result is a \$1.7 million improvement on the previous year, and we have budgeted for a surplus in 2023/24. This strong turnaround in financial

position has been achieved through sustained and dedicated hard work by the Board, Executive and our whole team, a willingness to make difficult decisions, and a focus on 'getting back to the basics' and ensuring our activities are aligned with our mission and what we choose to do, we do well.

This year we continued our focus on investing in our people. We delivered 3,844 hours of face-to-face training to 413 team members and 1,686 hours of online training to 588 team members. We also introduced our Leadership Development Program (LDP). The program aims to build the leadership capabilities of our Executive Management team, Senior Management team and Team Leaders and Coordinators across a range of development categories.

We would like to express our gratitude to all our volunteers and students across our Barwon and Western Melbourne region who have dedicated 3,670 hours to support our team members in our recreation programs. Your contribution is much appreciated and you are an important part of our team.

We would also like to acknowledge the amazing work done throughout the year by our Auxiliary, who volunteer their time to raise much needed funds for Gateways. This year the money raised by our Auxiliary

has contributed to the purchase of a new minivan for our Western Melbourne recreation program. The minivan enables us to transport our participants to their chosen activities and programs, connecting them with their local community.

A huge thank you to our Gateways team members for their dedication and commitment to achieving our mission and tirelessly striving to meet the needs of our participants and our community.

We anticipate another robust year, filled with a revitalised sense of purpose and ambitious goals, aimed at strengthening Gateways for our community.

Keith Baillie,  
President

Rohan Braddy,  
Chief Executive Officer

## SUPPORT COORDINATION

2022/23 has been a successful year for Support Coordination, with continued growth in participant numbers and hours of support delivered. Our team continues to work with a wide range of participants to support all aspects of independence and capacity-building across Geelong, Warrnambool, Ballarat, Werribee, and surrounding areas.

We delivered support coordination to 760 participants and specialist support coordination to 32 participants, totaling almost 48,000 hours of support. Into the future, we are looking to increase the number of participants and further build our specialist team.

### Feedback from our community

Our team continues to receive excellent feedback from stakeholders across our community.

'What an epic saga this has been! Thanks Kristy, easily the best support coordinator that Riley has had in the time I have worked with him. Thanks for your amazing effort.'

**Behaviour Practitioner**

'During discussions, both Director and Senior Planner praised the professionalism and support of Lauren in her capacity as Specialist Support Coordinator and also her promptness, knowledge base and willingness to support the complex team.'

**Director Complex Pathways Youth Justice**

'I want to let you know that Amulya is an amazing support coordinator. She goes far and beyond for myself and my daughters. Amulya is always in contact with me and tries to help out as much as she can. Amulya is understanding, patient, considerate, willing and able and always offering support. Amulya is always happy and positive. I have never met someone who wants to help as much as Amulya has. Gateways Support Services is lucky to have an employee who has all these qualities that are rare to find these days. Thank you Amulya for all your support and guidance.'

**Parent**

## NDIS PLAN MANAGEMENT

NDIS Plan Management continued to experience strong participant growth in 2022/23 with 780 participants having their NDIS plan managed by Gateways. The Plan Management team processed more than 37,000 invoices this year. The new MYP plan management app was fully embedded, improving efficiency and transparency for participants.

We will continue our focus on growing Plan Management and improving our systems and process to support the new NDIS computer system roll out in 2023/24.

## INCLUSIVE FAMILIES

The Inclusive Families team has continued to provide high-quality disability-expertise-focused supports to families in conjunction with key partners, strongly supporting the broader family support system in the Barwon region.

In 2022/23 our team consisted of 5 key workers, each with a different focus, supporting 32 families with complex needs and providing over 6,000 hours of supports.

Demand for these types of family supports remains strong, and we plan to continue this important work and strengthen our networks in the coming year.

## KINDERGARTEN INCLUSION SUPPORT AND PRE-SCHOOL FIELD OFFICERS

The Kindergarten Inclusion Support Team experienced more than 25% growth in hours delivered in 2022/23, as this critical Department of Education and Training funded service experienced unprecedented demand. We are implementing a range of process improvements to run this program most effectively and look forward to leveraging technology for further efficiency improvements moving forward.

The Preschool Field Officer (PSFO) Team has continued to provide high-quality and highly regarded expertise to preschools, embedding their reputation as a knowledgeable and supportive service across a large service area.

In 2022/23 we onboarded more than 200 Individual Assistants who supported 364 3- and 4-year-olds with more than 50,000 hours of support. Our PSFO team supported more than 900 children across dozens of preschool settings.

# ACCOMMODATION SUPPORT SERVICES

## What is a home?

*The question of 'what is a home' is a driving question at Gateways. A home is not a workplace or somewhere where people receive supports. A home is a place where people live the way they choose, feel safe, have choice and control and can be their natural self. A home gives people the foundation to grow, thrive, dream and succeed. A home can take many forms, a home is a feeling one gets deep inside and gives people a sense of belonging. No two homes are the same. It is hard to define what is a good home, as only the people living there can determine this. A quality home should not just be measured on all of the systems and processes in place, or on what Gateways knows; rather, the focus should be 'is the home a real home' to the people who live there.*

39  
team members with  
10+ years with Gateways

Accommodation has seen some growth in 2022/23, although our focus this year has been on streamlining processes, updating and developing policies to meet the needs of our participants, and service delivery that exemplifies inclusion, diversity and cultural inclusivity.

### Accommodation

We have 68 participants in our care across 28 homes, including 2 new homes in 2022/23. We have provided 284,408 hours of support and 32,367 hours of individual support and received \$24 million in funding.

### Child and Youth Support (CAYS)

Gateways manages 3 houses for children with complex disabilities who are unable to live with their families. We have 8 children/adolescents currently in our care, have provided 13,570 hours of support and received \$5 million in funding.

### Team members

Our 322 residential team members and 41 therapeutic residential team members were supported by 6 managers throughout the year. The accommodation team takes great pride in its exceptional strength and expertise. Remarkably, 39 team members have dedicated over 10 years of service to Gateways and the amazing participants in our residences.

hours of support

## Communicating joy at Edmill

In the serene neighbourhood of Edmill Court resides Denzel, a resident of Gateways' supported accommodation, who recently celebrated his 21st birthday milestone.

Denzel's journey hasn't always been smooth sailing. He's faced challenges in his previous home, where safety concerns led to restrictions. Due to his tendency to want to get out and about on his own, staff had to lock both the front and bathroom doors to prevent potential risks.

Fraser, an Edmill Team Leader, reflects on Denzel's growth, 'Over the years Denzel has continued to improve his communication skills which is especially impressive since Denzel uses alternative forms of communication.'

Edmill has played a pivotal role in Denzel's progress. Fraser explains, 'For Denzel, living at Edmill has been a game changer. One of the biggest impacts is the huge, shared yard space for Denzel to be able to enjoy. He loves being on his feet and exploring. Having such a large property allows him to burn energy and explore his environment as much as he likes while remaining safe.'

Fraser also highlights another crucial aspect of Edmill, the presence of the dedicated staff, 'Denzel is one of the most social people on the planet. Having an endless stream of people for him to interact with and bring a smile to their face with his infectious personality is fantastic.'

'He brings happiness wherever he goes,' Fraser says. 'He is always a friendly face to members of the community he meets along the way and due to his beautiful nature always gets the respect he deserves from those he meets.'

Recently, Denzel celebrated his 21st birthday surrounded by friends, enjoying the thrill of unwrapping presents and enjoying outdoor activities. A new sandpit added to his delight, making the day even more special. 'Denzel celebrated his 21st birthday surrounded by the people who make him happy.'

But Denzel's happiness goes beyond the confines of Edmill. He thrives on community outings, creating new friendships wherever he goes. His presence at the local dog park is particularly endearing, where he engages with dogs and brings smiles to people's faces. 'Denzel makes friends everywhere he goes with his smile and laugh' Fraser says.

At Edmill, Denzel enjoys his hobbies. He loves playing with his cherished toys, including a spinning pram. His love for music shines through as he strums the guitar, plays the keyboard, and enjoys the ukulele with the support of our staff.

Shakira, Denzel's sister, attests to the positive impact of Gateways' community, affirming, 'I think Denzel being a part of the Gateways community has allowed him to flourish and be the best version of himself. From the support and care from his wonderful care team to having bonds with the other participants at the house and at Social Connect, it has all been positive.'

Shakira shares, 'Seeing Denzel have friendships and interacting with other participants and staff, makes me feel at ease that he has an amazing circle of people around him. Staff go above and beyond to ensure his needs are met'.

## SOCIAL CONNECT

In 2022/23 our participants have enjoyed several activities through our Social Connect program, some of which are new to the program this year:

- **NEW!** Grandview Haven Farm – where participants can immerse themselves in farm life, feeding chickens, brushing donkeys' manes, playing with dogs and guinea pigs, as well as attending to the horses.
- 'We Rock the Spectrum' - a sensory-friendly gym that allows participants to engage in physical activity while promoting the importance of play, movement, and physical and emotional well-being.
- Social Outing Fridays allow participants to explore different parts of our community and make new connections. Participants choose their adventure destination, and new places that have been explored include Barwon Heads, Torquay, and Anglesea.
- We have welcomed some chickens to our Hunter Street location this year, providing participants an opportunity to engage in meaningful and therapeutic interactions with the animals, allowing individuals to experience the joys of animal companionship while learning about responsibility and care.
- A communal vegetable garden has been established at our Thompson Road site. Participants have been actively contributing to the upkeep of this garden, demonstrating their dedication to maintaining a sustainable space. The garden not only serves as a

source of fresh produce but also creates collaboration and collective effort among the Social Connect participants. The fresh produce has been a great addition to cooking activities on the site. Seasonal vegetables and herbs grown in the communal garden are utilised to enrich the cooking experience and add a farm-to-table aspect to the meals prepared.

The future for this program looks bright, with strong demand and plenty of ideas from within the team to continue to deliver the most meaningful and engaging supports to participants.

## Unleashing creativity, building connections, and celebrating a memorable birthday

Adam, a participant of Gateways' Social Connect program, eagerly anticipates his next event after a memorable ABC-themed birthday party. Living with autism spectrum disorder (ASD), Adam has been actively engaged in various programs at Social Connect since starting with Gateways in 2021.

Gateways has had a profound impact on Adam's life. Danny, Adam's dad says, 'I think it actually did enhance him quite a bit because of the variety that is offered for his weekly participation. The wide range of activities available to Adam has been important, but even more so, are the friendships he's created that have enriched his social life'.

Hannah, the Site Coordinator of Social Connect, talks about Adam's journey, saying, 'Adam participates in a variety of programs at Social Connect such as Bounce, indoor sports at Try Boys basketball stadium, gym, café culture, shopping, and creative programs where he makes characters/props for his upcoming birthday. He also enjoys using public transport to the library, bowling, and attending the social outing every Friday where we go to different locations each week.'

'Like each participant, Adam is supported appropriate to his needs while he attends Social Connect,' she adds. 'The time and effort that staff put in is to ensure that Adam's programs include independence building, relationship development, and the freedom to make choices.'

A standout moment in Adam's journey was his 2023 birthday celebration. Months of planning went into the themed celebration centred around the ABC. Adam's creativity shone as he designed costumes and assigned character names to staff and participants. He was Tinky Winky from the Teletubbies.

What makes these events truly special is the sense of community at Gateways. Participants and staff come together to support and celebrate Adam. This year's celebration was a

day filled with laughter and friendship, finishing with Adam treating everyone to a fun dance routine.

Social Connect allows participants like Adam to enjoy diverse activities, access support and socialise in an inclusive and safe environment.

Danny reflects, 'It means a lot because his social community is much, much higher, and all in all, he seems to enjoy it, and as I've said previously, the variety that's available to him throughout the week means a lot because it's not a repetition from day to day. Every day is something different, and for him, being able to participate in those daily activities is great'.

## Empowering Inclusion through the Safety Squadron Program

Working towards expanding his business and going on a holiday, Anthony is a part of our Safety Squadron, a program that allows him to be a valuable and a contributing member of a team.

Carolyn Foot has been Anthony's Positive Behaviour Support Practitioner for about three years. Her job is to make sure Anthony is safe and happy. She has seen Anthony change a lot during this time. 'When I first started working with him, he was exhibiting lots of complex behaviours, he was assaulting staff, he was running off, he was highly agitated a lot of the time through his environment, and he had lots of issues with his eating'.

The Safety Squadron, started by another Gateways Positive Behaviour Support Practitioner, aims at giving participants a purposeful role within Gateways. Anthony joined the Safety Squadron after the team decided to expand their initiative to include other participants. 'I thought of Anthony because he absolutely loves anything to do with safety and he loves working around the Gateways office.'

The Safety Squadron is a big part of Anthony's journey. In the Safety Squadron, he checks first aid kits every week and makes sure the cars are safe by checking the fuel and tyres.

Being in the Safety Squadron has taught Anthony many important things. Carolyn says, 'Responsibility is one. He knows, like all of us, he has to come in, do his work. He gains recognition around the office, and it is a valued role.'

'He's now working, he's engaged in lots of programs out in the community that he wasn't before, he greatly enjoys community access, he goes camping overnight. He is generally a lot happier and probably a lot healthier; he's been on a healthy eating program.'

Anthony is working towards going on a holiday to Queensland. Gateways is helping him plan this trip. He also wants to do more work at the Gateways office, like checking more first aid kits and helping in different places, such as Gateways houses.

Carolyn mentions, 'the fact that at the Gateways office, he can come into this office and perform a role, and if he mucks up a little, that's okay. It's a safe environment for him to learn those skills and he has lots of people around him to support him. And it also works very well for people who work in the office, to feel a part of the culture that we have got people with disabilities here, and they're doing valued work, and they're interacting just like every other member of the workforce'.

## SPECIALIST BEHAVIOUR SUPPORT SERVICES

Behaviour Support continues to be a key strength and focus area for Gateways with two additional Behaviour Practitioners joining the team this year to meet ongoing demand.

We are continuing to focus on developing our ability to provide Positive Behaviour Support and Restrictive Practices training to Gateways staff with 200+ hours of training provided in this area throughout the year.

Moving forward we're looking to grow our capacity to expand Behaviour Support to more regions with a focus on remote areas.

The development of a stand-alone Authorised Program Officer (APO) and Authorised Reporting Officer (ARO) has increased the quality of service offered by Gateways, focusing on compliance to ensure that all restrictive practices are identified, approved, and reported on.

### What is the role of an Authorised Program Officer (APO)

The APO approves the use of restrictive practices in a person's Behaviour Support Plan (BSP). They ensure all restrictive practices in use are captured, documented in the BSP and approved by the Victorian Senior Practitioner. Their role is also to monitor and oversee the implementation of restrictive practices within the approved BSP and ensure that there are strategies in place to drive a reduction in the use of restrictive practices. The APO also ensures that participants are aware of the restrictions that impact directly and indirectly on them.

# RECREATION AND CAMPS

2022/23 saw us deliver a strong offering of recreation groups and camps for our Geelong and Western Melbourne participants. These activities are designed to help our participants learn and practice important social, community, and independent living skills in a supportive and enjoyable environment. On top of that, they get to build meaningful friendships along the way.

Urban Explorers was created early in 2023 to support participants with higher support needs seeking a life-enriching alternative to traditional day programs. On Thursdays & Fridays, the participants enjoy community-based activities which align with their interests, supported by an amazing team of select individual support workers highly in tune with their needs. They have engaged in a variety of fun outings, including days out exploring Melbourne & Country Victoria by public transport, and visits to Comic Con and the Melbourne Celtic Festival.

Some camping experiences included a thrilling day in the snow, the penguin parade at Phillip Island, and action-packed outdoor adventure at Cave Hill Creek.

2022/23 saw the launch of new and continuation of many existing recreation programs, such as Build & Play, Lego Mates, Splash & Play (Swimming), Minecraft and PC gaming, Ladies & Men's Clubs (18+),

Gateways Gazette, Train Trippers, and Market Makers. The Barwon EAT Program was an award nominee for the Jean Simpson Award.

Over the course of the year the recreation and camps teams provided more than 43,000 hours of supports. Camps were delivered in 26 different destinations in Victoria.

As we gear up for the year ahead, we're eagerly looking forward to more incredible experiences and fun. We are constantly working on expanding our activity and destination options for our participants so that they can explore even more incredible places. Plus, we hope to be taking our capacity-building camps interstate. We will continue to build on the new recreation programs to ensure we respond to participant feedback and provide the best value.

# INDIVIDUAL SUPPORTS AND AGED CARE

This year saw the ongoing delivery of individual supports to a broad range of participants in the community and in their homes, providing capacity building and respite. Our over 65s program, Prime Movers, ran 3 different groups across the Geelong and Western Melbourne regions, enjoying a range of community-based activities from sing-alongs at local Morning Melodies groups to trips to museums and art galleries.

Looking forward our focus is on improving the customer journey through our onboarding processes and risk management to further enhance safety in our service delivery.

28,000+

6,000+  
hours of support to  
Prime Movers

# THERAPY SERVICES

Our Western Melbourne therapy team provided 7,615 hours of personalised support to 75 children, young people, adults and their families within the region. The team continued to go above and beyond to make a difference in the lives of those they support through individualised therapy services designed to help development in areas including communication, learning skills, self help skills, sensory awareness, and developing social relationships. Through their dedicated approach the team has assisted in building life changing capabilities for individuals and their families.

Looking forward, we are seeking a new space for our therapists in Western Melbourne, providing opportunity to build on our range of services and programs offered within the region.
