

# Strengthening Parent Support Program

Registered  
NDIS  
Provider

**A free service to connect, support and inform parents and carers of a child with a disability.**

## We're here to help

Gateways Strengthening Parent Support Program is a free service designed to empower and support families in caring for a child (0-18) with a disability or developmental delay.

The wellbeing of parents and carers is strongly linked to the wellbeing of the children they care for. Our service aims to support the strong and healthy development of families through individual and group supports and information sessions.

You don't need to be a Gateways client or have an NDIS plan to access this free service.

Gateways is an NDIS and DHHS registered disability service provider, with quality accreditation.

## Additional program information

For more information and event dates visit [www.gateways.com.au](http://www.gateways.com.au)

Programs and events run from Geelong head office

**Head office:** 12-14 Thompson Rd,  
North Geelong

## Our Mission

Gateways Support Services' mission is to empower and support children and adults who have a disability and their families to maximise their quality of life, potential and positive relationships. We also build knowledge in communities to enrich their understanding and active embrace of people with disabilities.

Gateways Strengthening Parent Support Program is supported by the Victorian Government.
