Our Mission

Gateways Support Services' mission is to empower and support children and adults who have a disability and their families to maximise their quality of life, potential and positive relationships. We also build knowledge in communities to enrich their understanding and active embrace of people with disabilities.

Gateways Support Services is a leading community organisation that has been making a positive difference in the lives of children, adolescents and adults with a disability or additional need and their families for more than 20 years. We specialise in supporting people with autism, intellectual disability and complex behaviours.

Through skilled assessment and early intervention, specialised therapy, innovative capacity building and quality accommodation, we support people through every step of their journey.

Each year, Gateways is privileged to assist more than 2000 individuals with a range of supports across Geelong, Melbourne's western suburbs and south west Victoria.
